

# MEBLE *Wojtek*

Everyone dreams of a unique, homely interior. A space where it is a pleasure to spend time in and relax in. Beautiful, cosy, arranged in a style that makes us feel good. A style that reflects how we live and what we need. How do you find it and choose the one that suits you best? How do you create your own style and furnish your home based on it?

Just as you like!

In Meble Wójcik we know that the element that affects the final appearance of a home is furniture. They create the interior, which is why we focused on diversity and the highest quality when designing each collection. We want everyone to find something for themselves in our offer. Furniture that will perfectly match both traditional and modern arrangements, as well as smaller or larger rooms.

If you are looking for an idea for your interior and you expect your furniture to be not only interesting in terms of design but also functional, please see our catalogue and take a look at our collections. For more interior design inspiration and advice on interior design styles, please visit our website [www.meblewojcik.pl](http://www.meblewojcik.pl) on our social media and on the blog „Jak umeblować i nie zwariować”.

living and dining rooms

BODY/FRONT  
Alpine White/Gloss White

in tune with your lifestyle

Avenale is a collection of cabinets available in three thoughtfully chosen colors. Vertical fluting catches the eye, bringing rhythm and striking character to the design, while sleek fronts introduce elegance and a contemporary look. Five versatile units let you arrange your space with freedom - matching your needs and lifestyle.

glossy fronts

cabinet type AVEK02, TV cabinet type AVEF01

when details speak volumes

Avenale collection in Alpine White, with high-gloss fronts, is a choice for those who cherish harmony and airiness. Light decor combined with vertical fluting creates an elegant, visually expanded space with a fresh feel. In this color variant, the details speak volumes - subtly, yet with character.

## where coziness leads the way

In the Avenale collection, the Cashmere decor brings warmth and softness to the interior. It's a perfect choice for those who want to create a cozy space, but with a modern edge. The gentle color perfectly blends with vertical fluting, and the light form offers both style and everyday functionality. This version of Avenale, details - from color to texture - create a sense of serene, home-like tranquility.

Anthracite

TV cabinet type AVEF01, cabinet type AVEK03

## gray goes black

The deep anthracite finish accentuates the contemporary dimension of the Avenale collection. In this variant, the cabinets take on an almost architectural character - ideal for interiors that embrace bold accents. Rhythmic fluting, matte fronts and light legs create a striking contrast, dynamic yet elegant.

## modern and stylish

The Brolo collection is the essence of modernity thanks to the innovative material used in the fronts of individual pieces. The MDF board is mass dyed and covered with gloss white foil and then milled in geometric shapes to expose the black inside of the board. This unique effect looks warmer thanks to the beautiful wooden color of the body, resulting in a very designer look.

## traditional and timeless

The warm oak color, metal, rustic handles, and the large construction of the fronts resemble classic wooden furniture. The glazed sides of the display cabinets, which can also be backlit, break with tradition and make the sturdy units visually more delicate. The pleasure of using the furniture is increased by the soft-close mechanism of the drawers and fronts.

## always trendy

Wooden decors have the charm that, despite changing trends, still reign supreme in our interiors. We appreciate cozy spaces that invite us to relax and lounge, and the Grano collection is a perfect example of that. Cold shade of oak combines admirably with dark gray elements creating elegant contrast. The Grano collection fits harmoniously with both intense and pastel colors of walls and accessories. Rounded fronts and lit up glazing establish an atmosphere of style and comfort.

## elegant subtlety of gold

It could be argued that a lot has already been said about white furniture. Lazio, however, can't be compared to any other, thanks to its original golden inlays. Golden, metal handles and back panels in display cabinets, gorgeous illuminations that supremely bring out the noble shine — these contribute to unobvious glamour, full of elegance and class.

## sage rage

Sage green - it's an absolute favorite of the upcoming seasons. Where did the sage rage come from? It's the versatility - it perfectly matches wooden shades, black and graphite, and combines wonderfully with cozy beige tones. All in all, it's an ideal foundation to create a cushy but also modern interior. In the Pozzi collection, the green was beautifully combined with oak-colored fluted sliding fronts. Functional and practical - you cannot see fingerprints on them.

## more than good design

Dive into modern design with our Shirley collection. The fluted fronts in oak color, enriched with black printed vertical lines, establish a dynamic duo which superbly harmonizes with the metal legs of the furniture. That makes the furniture seem light, despite its industrial character. It's worth mentioning that raised furniture allows for easier vacuuming underneath, even with a cleaning robot. Another practical feature are doors with a soft close system, significantly affecting the comfort of use.

Repellent

It's covered with a special protective layer, creating a hydrophobic coating to protect against quick liquid absorption. It prevents the fabric from immediately absorbing water, leaving the liquid condensed on the surface of the material. This gives you time to gently wipe up the spilled liquid using a soft cloth or paper towel.

## calming ambiance

Classic, elegant bedroom - that describes this collection well. The wonderful walnut color, which is the quintessence of style, perfectly matches with neutral, sandy and glossy fronts, establishing a calming and soothing interior. The key feature is the upholstered beds, draped with fabric that matches the fronts. Each detail is meticulously crafted, creating a million-dollar look for the furniture at a much more budget-friendly price.

## one piece of furniture – many possibilities

So you can't decide how to finish decorating a child's room? Are you constantly changing your mind, looking for a neutral furniture color that will suit everything? ## cashmere chic

The thing we like about teen’s furniture — neutral cashmere base (suits all colors of walls and accessories), oak inlays (impart a more grown-up feel to the whole collection), lack of handles (safety measure for small children) and functionality (drawers with full extension). A particularly interesting feature is the suspended desk, which can also serve as a console table (especially appreciated by teenagers, who will gladly use it as a place for doing their makeup!). Such a desk takes up little space, contains 2 functional drawers, and is very impressive and chic. Of course, a regular desk is also included in the collection, along with elements such as a TV stand and a 120cm wide bed, once the room becomes a teenager’s room.

## duo of white and gray

Flexi is a youth collection in versatile colors that'll look great in a child's room. The gently contrasting combination of colors and horizontal grooves on the fronts create an interesting union and highlight the aesthetics of the furniture. Another benefit is the rounded fronts and bodies, which make the collection not only look light, but be convenient. The Flexi collection is handleless, which further highlights its modernity and functionality.

## everything where it belongs

The amount of dividers, niches, and cabinets in the Laser collection is truly impressive. This way, every item will find its place, which will keep at least a semblance of tidiness in the teenager's room. It will put an end to tossing all the clutter into the abyss of cabinets and then searching for it forever. We recommend this perfect set to create a place to study — a desk, a bookcase and a capacious shelf.

white is always safe

Who says a baby's room has to be multicolored? Well, that's just the way it is - there are dozens of toys, colorful books, markers, plushies, etc. There is a lot going on so sometimes it makes sense to „calm down” this colorful dizziness with a secure, neutral base. The Novi collection will surely survive the challanges of changing tastes - matt fronts are perfect for walls both in delicate pastel colors as well as for bold, saturated colors and decorations.

## interior with character

Recycled wood is a fashionable trend. It will work especially well in a teenager room, whose owner wants to stand out. Tidiness is not a priority in their head! Hence, spacious drawers and under-bed recesses that provide storage for various objects. What's more, on the decor, resembling raw wooden boards, fingerprints won't be visible.

# all in one, one for all

We admire collections that are multi-functional and allow us to change the character of a room. The Pozzi collection is ideal both for child's or teenager's room, but also in the living room or in a studio apartment. The combination of stunning green and oak-colored fluted sliding fronts makes the Pozzi collection unpretentious and casual, thereby creating an interior that is light and functional.

## this can't go wrong

Each combination of pieces is a hit - thanks to the interesting geometric form, high, straight legs and minimalist handles that vanish and do not disturb the form of the furniture - you can flawlessly create various furniture arrangements that will fit perfectly into any interior and any style. A fashionable digital print imitating wooden slats fits perfectly with the white and color of the wood, creating an interesting and unpretentious mix.

## for those ‘more grown-up’

Teenager’s room or studio apartment - if you need roomy units that store a lot, the Twenty collection is for you. The color scheme of the furniture is a great match for the entire color palette and the simple form adds a modern touch to the interior. However, if we want to warm up our space, it is good to enhance the collection with natural elements, such as wicker baskets or knitted containers and organisers, especially as the spaces between the shelves are ideal for this.

# Lighting overview

You can use Led Clips, Square or Prismatic for backlighting. Please refer to the manufacturer's recommendations in the description of each collection at the end of the catalogue.

## PRISMATIC

The Prismatic luminaire is a striking way to illuminate the inside of a display cabinet, consisting of a metal cover with an integrated Led strip.

## SQUARE

The Square luminaire is an excellent option for lighting up display cabinets. It's of small size, and easy to mount. Sold in sets containing a power supply and a switch.

## FLEXI LAMP

The lamp has a modern and minimalist design with built-in USB input. You can mount it to your bed as well as your desk or shelf. Sold separately, there are sets of 1 (cold light hue) or 2 lamps (cold or neutral light hue) with a power supply and necessary cables available.

## LED CLIPS

Led Clips - a small Led fixture designed to illuminate glass between 5 and 8mm thick. Applied to a glass shelf with a frosted edge, it creates an effect of a glowing glass edge.

## TOUCH LIGHT SWITCH

You mount it internally to the body of the furniture (under the top or to the side), so the lighting can be switched on/off quickly and conveniently by simply touching the desired spot on the furniture. You don't need coils of cables wriggling around on the floor. Check out how easy it is!
