

MEBLE *HOJCA*
YEARS
35

35 years behind us

The story of our company began in 1986, when Leszek Wójcik built his first woodwork workshop. Over the next 35 years, the small business transformed into a modern company employing 1,500 employees and making furniture known not only in Poland, but also abroad.

Just how you like it!

Dear Customers,
design your home

Create an interior suited
to your needs.

The home is your sanctuary, your own little place on earth, and your family nest. We want it to be associated with positive emotions and warmth. The space in your home should be comfortable, because there's nothing better than a short nap after work in a comfortable bed, or a delicious dinner at the family table.

Everyone has their own needs and tastes, and that's why there's no one solution of how the ideal home space should look. It should be tailored to your individual likes instead of following old trends.

We take great pleasure in helping you create an interior EXACTLY HOW YOU LIKE. Meble Wójcik collections are designed with both small and large spaces in mind. We want everyone to find something for themselves, hence our huge variety. Our team of experienced specialists also ensures that the elements are made meticulously to provide you with the highest-quality furniture for your home.

Are you looking for interior design inspiration? Do you want your furniture to be both beautiful and functional? Check out our catalogue and visit the website at www.meblewójcik.pl. For more ideas and home inspiration, visit our profiles on Facebook and Instagram, and the „How to furnish your home without going crazy” blog.

Karolina, author of the Instagram profile @aletuladnie

She combines simple beauty with a hint of extravagance and Scandinavian style like no one else.

She likes minimalistic, large spaces, simple, interesting forms and unions between the old and the new without forgetting about natural, vibrant accents.

Karolina shows how sometimes at a small cost you can add character to your interior and make every space unique. A beautiful effect is guaranteed!

Well furniSHed

As part of the furniSHed project, we've invited Karolina (@aletuladnie), Kasia (Conchita Home) and Jaogda (Lovingit.pl) to design a 15m² space in their own style, exactly how they like it. Thereby, three unique interiors were created with our furniture as the main character. Karolina designed a multi-functional living room, Kasia a romantic bedroom, and Jagoda a cosy kids' room. Get inspired!

Designing the living and dining rooms – what should you consider?

The interior sets the mood – it can be soothing or creatively stimulating. It's up to you what kind of effect it'll have on you. When choosing furniture and accessories for your living room, think about the functions it's meant to fulfil. Some will prioritise a large sofa and a very visible space for relaxation, while others will use this zone as a children's play area. While for some, the family dining table is the most important, others will instead want bookcases to store their extensive book or record collection.

So start by thinking about your lifestyle and needs. This will make it easier to plan which furniture to buy and how to best arrange it. In my arrangement, I focused on the multifunctionality of the living room, which is divided into two zones – one for relaxation and one for dining. The dividing line is the sofa, which by no means has to be placed against a wall. The beige walls and light accessories are calming, and everything is broken up using a few navy blue items.

Fribo and Fribo White Collection: table type **FRIT03**, chair type **S110** (Chair leg coloration: Oak/Fabric: Dove Gray), vitrine type **FRIV01**, bookcase type **FRIR01**, vitrine type **FRIV01**, cabinet type **FRIK04**, cabinet type **FRIK03**, coffee table type **RTV24**

Interesting arrangement ideas and solutions, i.e. my idea for a living room combined with a dining room.

While designing the living room, I decided to combine two colours of furniture from the same Fribo collection. The furniture doesn't blend together, and the same shape and form bring a feeling of cohesion. The cabinets provide you with storage space, while the vitrines allow you to display the most eye-catching decorations. The interior is cosy thanks to the natural materials used, such as bamboo, cotton and wood.

You'll love coming home to this space, and the neutral colour base means you won't get bored quickly. And when the time comes for a change, you can just change the decorations, introduce a different colour and get a whole new space without an expensive renovation.

new BROLO

cabinet type BROK04, book case type BROR02, shelf type BROP02, cabinet type BROK01

modern and stylish

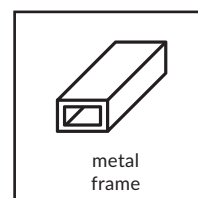

The Brolo collection is the essence of modernity thanks to the innovative material used in the fronts of individual pieces. The MDF board is mass dyed and covered with gloss white foil and then milled in geometric shapes to expose the black inside of the board. This unique effect looks warmer thanks to the beautiful wooden colour of the body, resulting in a very designer look.

BODY | FRONT
Grandson Oak

CORTINA

traditional and timeless

The warm oak colour, metal, rustic handles, and the large construction of the fronts resemble classic wooden furniture. The glazed sides of the vitrines, which can also be backlit, break with tradition and make the sturdy units visually more delicate. The pleasure of using the furniture is increased by the soft-close mechanism of the drawers and fronts.

combine, put together, mix

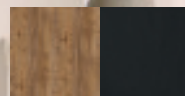

Do you like eclectic interiors as well as unusual design and colour combinations, but don't know where to start? The two Fribo colours go great together, even in one room. The oak cabinet and white vitrine or vice versa – the same shapes, but completely different looks. Put together, they'll make your interior unique in line with the latest design trends.

LUCI LIGHT

vitrine type LCCV02

jewellery for the home

The Luci vitrine is a real decorative piece for your room. Of course, space is important and you can hide your mess inside, but that's not all. The beautifully backlit niche will allow you to elegantly display your best crockery, mementos or even books – everything will look stylish. The vitrine looks light and designer, especially with the light strip.

new LYON WHITE

it can't get
any whiter :-)

White furniture has been the most popular living room option for years. So we've decided to present a new, white version of the iconic Lyon collection that thanks to its asymmetric shape and unique backlighting has rapidly gained masses of fans not only in Poland. In the white version with gloss fronts Lyon looks extremely stylish. The minimalist colours and interesting shapes of individual units make Lyon suit various styles depending on the accessories you choose.

SHETLAND

sturdy pieces

The natural shade of wood with a trendy horizontal grain contrasts the graphite recesses perfectly. The simplicity of the furniture, enclosed in a large body made of laminated board, means that furniture from the Shetland collection will always look great and work well in almost any arrangement - from loft apartments to warm, cosy interiors. If you get bored with the current colour, all you have to do is change the accessories or paint the walls - the choice is yours.

Kasia Bobocińska-Czerwińska – an interior designer, expert in the „Home Project” programme, author of the Conchita Home blog.

For 14 years, she's been inspiring and inviting readers into the world of design and good interiors. A lover of colour and unique combinations of tones and DIY. She's not afraid to take risks, and her projects are never boring! For four years, she's been passionately renovating a manor house from the interwar period. Her style combines elements with references to the 1930s with US glamour and Scandinavian simplicity.

Designing bedrooms – what should you focus on?

Start with the bed. Most Poles choose 160x200 beds, but the bed size should be adapted to your needs and the space available in the room.

Then, plan storage space. Bedside tables provide access to important items. A cabinet makes it easier to store bedding, and a roomy wardrobe will fit your clothes. I recommend furniture with a soft-close system to avoid doors and drawers slamming shut. If your space allows it, you can also use bookcases. They can be practical if you use them for books, or decorative if you fill them with beautiful items.

When designing your bedroom, it's also good to think about light. Remember about functional lighting, which will make it easier for you to relax with a book. Diffusion lighting will create the right mood. And don't forget about textiles – a rug will bring warmth to your interior, while curtains will block out light.

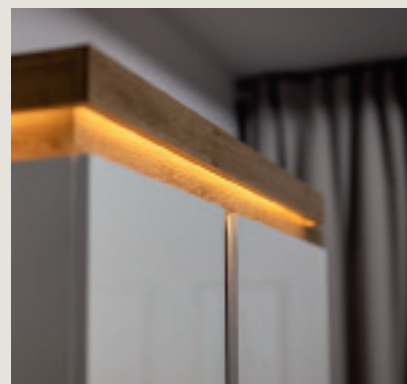

Lyon Light collection: bookcase type LYOR01P, wardrobe type LYOS01, night stand type LYOK03L, bed type LYOZ04, desk type LYOB01, chair type S110 (Chair leg coloration: Oak/Fabric: Dove Grey), cabinet type LYOK02

Interesting arrangement solutions – my bedroom design.

In the 15m² space, I've decided to arrange the furniture asymmetrically. I replaced one of the bedside tables with a desk. This small piece from the Lyon collection plays many roles. It's ideal for work, and if you hang a mirror above it, it changes into a dressing table.

Three elements have determined the character of the interior: neutral colours, choice of furniture in white with the addition of wood from the Lyon Light collection, and a decoration in the form of a vertical wooden wall feature. Another good choice was furniture with built-in LED lighting as an additional decoration. There's also plenty of storage room: a wardrobe and two bookcases.

harmony in the bedroom

Bedroom is a special place in every home. It helps to calm down and regenerate, allows you to take a deep breath and recharge before a new day. Furniture from the Fribo collection makes your room cosy and filled with warmth. Beautiful decor in Golden Ribbeck Oak colour and simplicity of the furniture form create a timeless sense of elegance. There are beds in the collection that have a raisable frame or ones with a drawer. Within the Fribo collection, there are also dressing wardrobes available in three different sizes.

A few tricks for a great child's room

Jagoda Kutkowska – designer, stylist, author of one of the most popular blogs in Poland – Lovingit.pl

Since childhood, she has been interested in painting and beauty, but she chose economy instead. However, her passion for new technologies and love for beauty she inherited from her mother were stronger, and she decided to create a blog about beautiful things. Today, along with her mom, she designs interiors throughout Poland and abroad. She's the author of „Mieszkaj Pięknie” [„Live Beautifully”], which was also published in Russia. Privately, she's a mother of two wonderful daughters.

1. Choose pastels

Pastel shades are neutral enough to last for years. They're also soothing and introduce harmony. This is a great alternative to strong pinks and blue tones.

2. Storage in the form of decoration

Choose baskets, bags and containers for storage that in themselves are decorative. Allow yourself to explore interesting prints on walls. Thanks to this, you can easily change the look of your room without doing a full renovation. In addition, it'll be easier to keep things neat and tidy without disturbing the aesthetics of your space.

3. Neutral furniture colours

The room should first and foremost last you for many years, and classics never go out of fashion and is suitable for all ages.

Amazon collection: desk type 81, storage unit type 85, shelf type 62 (2x), bookcase type 11, corner wardrobe type 21, chifonier type 10, bed type 90, cabinet type 30, shelf type 61

4. Toy storage

Children should be able to reach their toys easily, so don't place them on high shelves – find an accessible spot.

5. Cosiness is a must!

Why not try soft fabrics, lace or frills? Those will definitely add warmth to your interior.

6. The rule of base colours

When designing, I always decide on two or three base colours. I try to make sure that the accessories I choose always feature these tones. This makes everything cohesive.

My idea for a child's room – a challenge from Meble Wójcik

A 15m2 space has plenty of potential. I knew that I wanted to have a zone for studying and storage, and a separate one for playing. I've chosen my favourite collection – Amazon by Meble Wójcik – because I love its oak colours. I love the bed with the slide-out drawer – it's a great solution. You can store bedding and have friends sleep over. To complete the look, I introduced an accent in the form of a sticker. The choice of functional and neutral furniture guarantees that you and your child can enjoy the interior for many years. And when your little one wants

a change, you can replace the handles (the brand offers four versions to choose from) or change the accessories or stickers. For more inspiration, please watch the video.

Check out #furniSHed

cabinet type 30

AMAZON

an alternative solution

The bed has a fully extendable drawer, which is an interesting idea. It's the perfect alternative to a bunk bed. The drawer on wheels provides additional sleeping space if you ever need it (it fits a 190x80cm mattress)! And, if you don't see the need, you can always use it as a practical and generous storage compartment.

duo of white and grey

Flexi is a youth collection in versatile colours that'll look great in a child's room. The gently contrasting combination of colours and horizontal grooves on the fronts create an interesting union and highlight the aesthetics of the furniture. Another benefit is the rounded fronts and bodies, which make the collection not only look light, but be convenient. The Flexi collection is handleless, which further highlights its modernity and functionality.

white is always safe

Who says a baby's room has to be multicolored? Well, that's just the way it is - there are dozens of toys, colourful books, markers, teddy bears, etc. There is a lot going on so sometimes it makes sense to „calm down“ this colorful dizziness with a secure, neutral base. Novi collection will surely survive the challenges of changing tastes - matt fronts are perfect for walls in delicate pastel colours as well as for bold, saturated colours and decorations.

interior with character

Recycling wood is a fashionable trend. It will work especially well in a teenager room, whose owner wants to stand out. Tidiness it's not a priority in his head! Hence, spacious drawers and under-bed recesses that provide storage for various objects. What's more, there are no fingerprints on the decor, which resembles raw wooden boards. The „wow“ effect will be achieved by a LED lighting panel above the bed with a touch switch.

warm and cosy

A child's room is associated with a feast of colours and a huge amount of toys and decorations that your little one collects from month to month. Unfortunately, you can't avoid this. That's why it's good to focus on neutral and simple furniture that'll calm things down somewhat. Todi combines ever-fashionable white and oak, and the round handles are the greatest crazy decoration. The furniture will definitely suit all wall and floor colours, while the many different types of pieces will allow you to make good use of your space. It's worth noting the practical countertops, which are in oak to make them easy to keep clean.

Additional Accessories

To lit up the shelves you can use LED Clips, Dojo lub Prismatic. Check manufacturer's recommendations in the description of each collection at the end of the catalogue.

LED CLIPS

LED Clips – small LED unit meant to lit up glass 5-8 mm panels. It creates an effect of lit up edge of the shelf.

SQUARE

QUATRO

Square and Quatro units are perfect propositions to lit up vitrines. They're small and are very easy to mount. They're available in sets with a power supply and a power switch.

DOJO

Dojo is a spot light mounted behind a glass shelf.

PRISMATIC

Prismatic is a brilliant way to light-up the interior of a vitrine via a metal overlay with a LED stripe.

BUTTERFLY LAMP

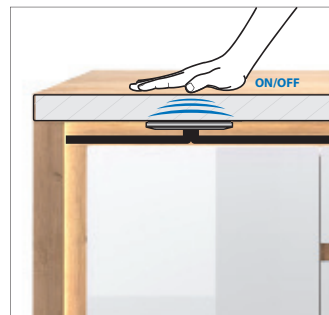

this is a combination of modern, original design and high-quality workmanship. It has a long, flexible arm and a convenient switch located on the head (in a cold colour). This lamp features LED diodes and is very versatile, so you can put it on your bed, shelf or desk. The option includes sets with one or two lamps with a power supply and the necessary cabling

FLEXI LAMP

has a modern and minimalist shape. You can mount it to your bed, desk or shelf. Flexible lamp foot will allow you to freely direct its neutral light color. Thanks to the built-in USB input you can charge your phone or tablet additionally. Optionally, there are kits containing 1 or 2 LED lamps

TOUCH LIGHT SWITCH

This is an extremely practical solution, thanks to which you can turn the light on or off quickly and conveniently simply by tapping on a chosen place on your furniture. You don't need messy bunches of cables on the floor. This is thanks to an additional, invisible light switch, which you mount from the inside to the body of the furniture
