-  Wood type: **Beech**
Leg colour: **Black**

Water Repellent Fabric

It is covered with a special protective layer, creating a hydrophobic coating to protect against quick liquid absorption. It prevents the fabric from immediately absorbing water, leaving the liquid condensed on the surface of the material. This gives you time to gently wipe away the spilled liquid using a soft cloth or paper towel.

See how it works 

PetProof Fabric

Fabrics marked with the PetProof mark have an increased resistance to pulling out threads caused by pet claws. They have a fine weave and a smooth surface, so hair does not stick to the fabric and is easy to remove with a clothes roller or damp cloth.

**Folding system
 FRONTSIDE**

The table with the Frontslide system is easy to unfold - with the help of an integrated lift, additional inserts smoothly slide out from one side of the table, extending the top to 235cm. In the unfolded version, the table top has no visible joints.
