

MEBLE *Wojcik*  
35 YEARS

# 35 years behind us

The story of our company began in 1986, when Leszek Wójcik built his first woodwork workshop. Over the next 35 years, the small business transformed into a modern company employing 1,500 employees and making furniture known not only in Poland, but also abroad.

The year 2021 is the next – 35th – anniversary of Meble Wójcik. We see how much work has gone into it over more than three decades. We have three production plants, a modern distribution centre with a high-bay warehouse, a team of designers and professionals who oversee the production of thousands of furniture designs. Our furniture goes to 250 stores in Poland and over 20 countries around the world. We put a lot of passion and heart into our work. We want our customers to be happy with the purchase of their Meble Wójcik furniture. That's why we make functional, durable and trending collections at an affordable price. We want our furniture to help you make your home a place you always want to return to.

Team Meble Wójcik

Our products have been awarded the following prizes:

Dear customers,  
design your home

*Exactly How You Like!*

Create an interior suited  
to your needs.

The home is your sanctuary, your own little place on earth, and your family nest. We want it to be associated with positive emotions and warmth. The space in your home should be comfortable, because there's nothing better than a short nap after work in a comfortable bed, or a delicious dinner at the family table.

Everyone has their own needs and tastes, and that's why there's no one solution of how the ideal home space should look. It should be tailored to your individual likes instead of following old trends.

We take great pleasure in helping you create an interior EXACTLY HOW YOU LIKE. Meble Wójcik collections are designed with both small and large spaces in mind. We want everyone to find something for themselves, hence our huge variety. Our team of experienced specialists also ensures that the elements are made meticulously to provide you with the highest-quality furniture for your home.

Are you looking for interior design inspiration? Do you want your furniture to be both beautiful and functional? Check out our catalogue and visit the website at [www.meblewojcik.pl](http://www.meblewojcik.pl). For more ideas and home inspiration, visit our profiles on Facebook and Instagram, and the „How to furnish your home without going crazy” blog.

We'll create your ideal space together!  
EXACTLY HOW YOU LIKE!

## discover the functional side of our furniture.

### lighting

Meble Wójcik collections are equipped with a wide range of different types of lighting, which can be more than just used in vitrines, or mounted to headboards of beds. Our designers went a step further by creating collections that already have lighting elements in the form of Led strips built into their structure.

### glazed sides of vitrines

This is the perfect solution for people who love large furniture, but think it lacks lightness. Thanks to the glazed sides, the vitrines become more delicate. You can also showcase items that have been hidden thus far.

### synchronising mechanism table extension

Share a table! Thanks to these guides, you can easily extend the table up to 200cm long by yourself, giving your guests plenty of room to sit, and then effortlessly fold it to regain a lot of space that you need every day.

### soft closing of the fronts and drawers

In an apartment, it's not only the look of furniture that counts, but also the comfort of its use. If you like drawers and doors that operate quietly, smoothly and slow down in the last closing phase, look for collections with this sign in our range. No more slamming and not closing!

### touch light switch -additional option

Light in an apartment has a big impact on your well-being. Now you can turn it on/off quickly and conveniently simply by tapping a specific spot on the furniture piece. You don't need bunches of cables next to your furniture. This is thanks to an additional, invisible light switch that is mounted from the inside into the body of the furniture piece. Check out how easy it is!

### rounded edges

This is an interesting stylistic feature that will help soften the furniture edges, giving it a more delicate and elegant character. However, it's not just about aesthetics, but also about the safety of use, which will certainly attract the attention of families with small children.

### full-extension slide

The slide's construction allows the drawer to be pulled out of the furniture body and provides full access to its content. When using full extension slides in drawers, we can organize them better. This is especially important in the case of shallow drawers, where access to the rear part is difficult.

### upholstered bedhead

In the bedroom, the most important thing is the bed, which is why it must be comfortable, and not just in terms of the quality of the mattress. A soft and springy upholstered bedhead will allow you to lean back and unwind while reading a book, watching TV or just relaxing.

### bed with a raisable frame

This is the perfect solution for those looking for hard-to-find, extra space in an apartment to put their rarely used blankets, extra bedding or seasonal clothing. Our frames are equipped with high-quality hydraulic systems, thanks to which you can easily open and safely close the storage area..

### bed drawer - additional sleeping function

A pull-out drawer is a great alternative to bunk beds! It provides an extra place to sleep once you put a mattress in it. If it's no longer needed, you can easily close the drawer, and have more space in your room.

## Living room and dining room

### The heart of family life.

The living and dining rooms are vibrant places. Dinners with friends, family movie nights or relaxing with a good book - no matter what you're doing, make sure this space is comfortable and cosy.

#### ➤ We advise on how to start planing.

Because the living and dining rooms must fulfil many functions, it's important that they are decorated cleverly. If you want to check if all the furniture will fit in the room, just draw it on a piece of paper (using the same scale as your floor plan). Then, cut them out and arrange them how you like on the plan - remember that you do not have to stick close to your walls. Sometimes, a couch and coffee table set in the middle of the room can be a practical and effective solution!

option of additional  
interior lighting  
inside the vitrines

vitrine type CNAV01, shelf type CNAP02, TV cabinet type CNAF03

vitrine type CNAV01

## traditional and timeless

The warm oak colour, metal, rustic handles, and the large construction of the fronts resemble classic wooden furniture. The glazed sides of the vitrines, which can also be backlit, break with tradition and make the sturdy units visually more delicate. The pleasure of using the furniture is increased by the soft-close mechanism of the drawers and fronts.

## warm and cosy

Interior design trends come and go. But there's something that never changes – simple shapes and natural wood. Spaces furnished with pieces from the Fribo collection feel wonderful thanks to the warm shade of Golden Ribbeck Oak. The distinctive features of the programme include lightly textured, smooth fronts, full-extension slide drawers, and a handleless system. Fans of minimalism will love the collection in white.

# new FRIBO/ FRIBO WHITE

## combine, put together, mix

Do you like eclectic interiors as well as unusual design and colour combinations, but don't know where to start? The two Fribo colours go great together, even in one room. The oak cabinet and white vitrine or vice versa – the same shapes, but completely different looks. Put together, they'll make your interior unique in line with the latest design trends.

# HAVANA

## fashionable, modern combination

Black matte fronts adjoin the expressive wood décor - this interesting trend appears in top-end designer interiors. Decorative grooves have been used where handles would normally be to avoid unsightly finger marks.

# new LUCI LIGHT

## jewellery for the home

The Luci vitrine is a real decorative piece for your room. Of course, space is important and you can hide your mess inside, but that's not all. The beautifully backlit niche will allow you to elegantly display your best crockery, mementos or even books – everything will look stylish. The vitrine looks light and designer, especially with the light strip.

## Wonderful mornings at your fingertips!

The bedroom is one of the most important and intimate rooms of the home. This is where your day begins and ends. In the evenings, close your eyes and enjoy the blissful silence, and greet mornings with a smile on your face!

### ➤ We advise - on how to start planning.

The bedroom should be dominated by calm, bright colours - you can paint the walls in these. Why? Pastel shades will help you relax and unwind after a day of hard work. Remember that accessories also contribute to a good aura in the bedroom. A plush rug, blackout curtains, elegant bedding, bedspread and fluffy pillows are perfect - thanks to them, your bedroom will be cosy and warm.

# ANGEL

wardrobe type 22

## a spacious bedroom

This isn't about the size of the room, but about the option of functionally arranging it thanks to the Angel collection. The additional under-bed drawer and three-door wardrobe, which has both shelves and four clothes rods, will help you make optimal use of your storage space.

# MONACO

## functional and classy

An upholstered bedhead, spacious wardrobe with an illuminated rod and mirror, and functional bedside tables all mean that the Monaco collection will help create your absolute dream bedroom. The deep black will steal the hearts of fans of unique, classy and elegant design trends.

## Children's and youth rooms

### Where dreams are born.

A children's room is a place for fun, learning and relaxation. It's a space where dreams are born and plans are made. Make your young one's kingdom inspire them to discover the world and make their dreams come true!

#### ➤ We advise - on how to start planning.

When starting planning, begin by choosing a colour scheme. In a children's room, it's best to focus on light colours - beiges, pinks, blues, pastels greens and delicate greys. The colours should not be tiring to the eyes or distracting.

Remember that the children's and youth rooms should reflect the passions and likes of the young person. It's their room, so if they want, let them choose the colours, accessories and furniture. You can also do it together - it could be great fun for you!

## an alternative solution

The bed has a fully extendable drawer, which is an interesting idea. It's the perfect alternative to a bunk bed. The drawer on wheels provides additional sleeping space if you ever need it (it fits a 190x80cm mattress)! And, if you don't see the need, you can always use it as a practical and generous storage compartment.

bed type 90

# AMAZON

## all shades of white

A child's room does not need too many colours. When combined with a delicate oak colour, white takes on character and defines the unique style of a cosy room, which is why Amazon is perfect for both girls and boys. This is all thanks to the handles, which come in four colours to choose from.

# ANGEL

## one piece of furniture - many possibilities

So you can't decide how to finish decorating a child's room? Are you constantly changing your mind, looking for a neutral furniture colour that will suit everything? Angel is the perfect collection for you thanks to the stylish White Craft Oak colour inspired by whitewashed wood, which is perfect for all types of arrangements, regardless of the child's age. Our range even includes a baby cot with an adjustable mattress level.

## white is always safe

Who says a baby's room has to be multicolored? Well, that's just the way it is - there are dozens of toys, colourful books, markers, teddy bears, etc. There is a lot going on so sometimes it makes sense to „calm down” this colorful dizziness with a secure, neutral base. Novi collection will surely survive the challenges of changing tastes - matt fronts are perfect for walls in delicate pastel colours as well as for bold, saturated colours and decorations.

interior  
with character

Recycling wood is a fashionable trend. It will work especially well in a teenager room, whose owner wants to stand out. Tidiness it's not a priority in his head! Hence, spacious drawers and under-bed recesses that provide storage for various objects. What's more, there are no fingerprints on the decor, which resembles raw wooden boards. The „wow“ effect will be achieved by a LED lighting panel above the bed with a touch switch.

Additional furniture:

## The foyer –your home starts here.

Many family situations happen in the foyer - parting and reuniting, affectionate greetings and farewells. It doesn't matter whether the foyer is big or small, it's worth putting a little effort and heart into designing it, because it's the showcase of your home.

### ➤ We advise on how to start planning.

The foyer - arrange it so that it's functional and spacious. Its design should reflect the colour scheme, style and furniture of the rest of the home. When arranging the foyer, focus on sleek and practical furniture that won't dominate the room. It's also worth having a mirror in which

you can „check“ yourself before leaving, and that will visually enlarge this space as well. You should also focus on lighting, and find a place you can use to put away everyday shopping or knick-knacks that you return home with.

# organised as soon as you

Arrange your foyer with the timeless Cortina collection and you can forget about rushed mornings and frantically searching for keys or your favourite scarf. Put shoes in the cabinet, coats into the roomy closet, and avoid clutter at your doorstep. Hang a mirror that doesn't just visual-

ly enlarge the space, but thanks to the Led backlighting, gives a unique decorative effect. Complete the arrangement with an upholstered bench so that you can put on your shoes comfortably. Enjoy comfort and convenience for many years.

## small, but clever

The space you need doesn't always equal the one you have. Remember that even a very small interior can be functionally organised. Use type 111 from the Imperial collection. This compact module will maximise the potential of the room and provide storage space you need every day.

## consistent style

Do you like consistency and harmony? Would you like your entry to give a taste of the atmosphere of the rest of your interior? It's now possible, thanks to the wide range of pieces in the Linate collection, including ones for the foyer. A shallow wardrobe designed for a narrow hallway, a hanger with a mirror, a hanging cabinet under which you can put slippers and shoes - this is everything you need to have an elegant and functional hallway.

## Additional Accessories

### BUTTERFLY LAMP

this is a combination of modern, original design and high--quality workmanship. It has a long, flexible arm and a convenient switch located on the head (in a neutral colour). This lamp features LED diodes and is very versatile, so you can put it on your bed, shelf or desk. The option includes sets with one or two lamps with a power supply and the necessary cabling.

### FLEXI LAMP

has a modern and minimalist shape. You can mount it to your bed, desk or shelf. Flexible lamp foot will allow you to freely direct its neutral light color. Thanks to the built-in USB input you can charge your phone or tablet additionally. Optionally, there are kits containing 1 or 2 LED lamps with a power supply and the necessary wiring. The lamp has been awarded for its design and high quality in the prestigious industrial design competition Red Dot Design Awards!

### TOUCH LIGHT SWITCH

This is an extremely practical solution, thanks to which you can turn the light on or off quickly and conveniently simply by tapping on a chosen place on your furniture. You don't need messy bunches of cables on the floor. This is thanks to an additional, invisible light switch, which you mount from the inside to the body of the furniture (under the top or to the side). Check out how easy it is!
