OUR STORY...

# IS A FAMILY STORY

The history of our company dates back to the 80s, when Leszek Wójcik – the most senior of the family – founded his own carpentry workshop in Elbląg, in which he began the first mass production of furniture.

Our company was established in 1986. Over 30 years, we've managed to build a modern, thriving and family-owned company. Our business is based on stable and strong family ties. We're a company managed by two generations of Wójciks, supported by a strong team of experienced and qualified colleagues. That's why we strive to base our projects on these values. Meble Wójcik furniture is created with the warmth of a family home, spending time together, and the common the safety of the members of the household in mind.

Over 30 years of operations, we've gained the trust of our customers, offering them products that are both functional

and durable, of high quality and at a good price, which is why we were able to create one of the most modern enterprises in the region of Warmia – Mazury. We've been building our brand for many years, starting from a small carpenter's workshop, which grew into a thriving enterprise consisting of three modern factories employing nearly 1,300 people. Thanks to the hard work and commitment of our employees, continuous organisational development, and investment in modern machinery, our furniture goes to homes not only in Poland, but in almost 20 countries around the world.

Thank you very much for your trust, and we hope that our furniture will meet your expectations.

## TRENDY

**before you start furnishing,  
take a look at our inspirations**

Tones inspired by nature, bright colours, original shapes and unconventional design. Robust, durable and ecological materials. Modernity and freshness. This is how we can sum up the latest trends in the furniture industry.

We create Meble Wójcik furniture in line with the latest world trends. We follow modern designs, adhere to global standards, and pay attention to the smallest detail. All of this makes our furniture truly unique.

Living room/dining room

# THE LIVING ROOM IS YOUR SPACE - DESIGN IT YOUR WAY. MAKE YOUR DREAMS COME TRUE!

The living room is a space where you rest, relax, and spend time with loved ones. Make it comfortable and cosy. This is your space! Design and furnish it, and enjoy its atmosphere.

.....

## WE ADVISE YOU **HOW TO START PLANNING**

The living area often fulfils many functions – from a place where you can rest, to a dining area and a meeting place. Make it interesting! To make sure that all the furniture will fit in the room, draw it in the same scale as the plan of the apartment. Cut it out and arrange it on the plan. Arrange however you like, and remember that you do not have to keep to the walls. Sometimes, the sofa can stand in the centre.

# ASPEN

living room/dining room

The furniture in the trendy grey Riviera Oak and gloss fronts in Sand will prove ideal in both the living and dining rooms. The Aspen collection is perfect for small apartments. Thanks to its bright décor, it will visually

enlarge the room. The greyness of Riviera Oak suits perfectly to bright tones - from warm beiges to soft greys.

**Led Flash** lighting integrated into the body

Colour: **Grey Riviera Oak**

## LED FLASH lighting - class and style in every way

The structural LED FLASH lighting in the top panels is the perfect finish, adding a modern look. This effect can be further enhanced by illuminating the glass shelves, which will draw attention to your home's accessories.

## The vitrine that makes everything within reach

The generously sized and stylish vitrine from the Aspen programme will suit even the smallest dining room. You'll fit everything you need into it. See how much it can fit!

# ASPEN system

The dining room needs not only a table, but also cabinets and vitrines, because it's a place where you can store trinkets, tableware and precious glassware. The Aspen collection includes a selection of vitrines and cabinets that'll help tidy and organise your dining area.

# IMPERIAL

living room/dining room

The Imperial collection was created for those who appreciate classic and elegant interiors.

The warm, natural colour Imperial Walnut gives the room a unique and elegant feel. When designing an interior, you should pay

attention to the colour of the furniture and accessories. Matching them well turns your space into a coherent whole, where you will happily spend time with loved ones. The furniture in the Imperial system are perfect with bright wall colours - an off white, ecru or light beige.

**LED lighting**

## An elegant and practical room layout - a small space is no longer a problem

You can let your imagination run wild with the Imperial collection. Combine, put together, and choose furniture perfect for you and your home. With modular solutions, you can organise your own space.

# IMPERIAL system

Small apartments often lack room for wardrobes, cabinets or vitrines. That's why the ideal solution is a wall unit, which will replace all the large and awkward furniture.

# IMPERIAL NEW

## living room/dining room

Its modern look and unconventional design make the collection perfect for a cosy but contemporary interior. The combination of the two colours in the collection – Truffle Oak and Champagne Oak – gives more options when choosing additions and accessories.

The natural colour of the furniture fits perfectly with the entire colour palette. From white to grey, depending on your preference.

# LINATE

living room/dining room

White interiors don't necessarily have to be cold. White has many shades, including warm ones, which will make your interior cosy. The colour is noble and elegant, and suits both small and large areas. White in your interior

can easily be dressed up with colourful accessories. If you're using white furniture, choose pieces that combine two colours - white with elegant features in natural wood tones.

# LINATE

living room/dining room

Rounded shapes and truffle features give the collection a minimalistic feel. The collection's classic lines are accentuated by the LED lighting used in some elements. Furnishing your space with the Linate collection,

you should combine the Alpine White of the furniture with accessories in warm earthy tones. In large rooms, the collection is also an ideal match for dark walls.

**Quadro lighting**

Colour of features: **Truffle Oak**

## An innovative approach to design in an unusual combination

Linate collection fronts - simple, elegant, with gently rounded edges. Their unique design is underlined by the stylish features Truffle Oak, continuing to the side of the piece. The dark elements suit perfectly to the gloss finish - Alpine White.

## Impressive displays

Your precious and beautiful trinkets decorate your home. The glass fronts and sides of the pieces in the Linate collection are a great way to show them off. If you lack space, show one or two items.

# LINATE system

An elegant and stylish space to work in your home, thanks to which everyday duties will become a pleasure. Joining several pieces from the collection together creates a perfect whole. The furniture in Alpine White will become a functional decoration in your home.

# LYON

living room

The LYON collection is a tribute to elegance. The original, geometric shapes of each piece can create an interesting room design. Thanks to the combination of gloss white with elements in Riviera Oak, the furniture gives the impression

of being light and delicate, and an interior featuring them will make your interior seem cosy and fresh. If you sometimes feel a hint of nostalgia for the classics, you will love the glazing in the vitrines and cabinets. Modernity meets tradition thanks to references to this classic piece.

A touch light switch can be **installed**

Colour: **Light Riviera Oak**

## See your living room in a completely new look!

A unique feature of the Lyon collection is the clever lighting of the top panels and sides of each piece (it comes included). By putting together several elements, you build a remarkable light installation that will bring out the charm of your living room. In addition, you can use the touch switch, which will allow you to discreetly turn on the light in the key moments, without having to look for a switch that's deeply hidden behind the furniture.

# LYON system

LYON is not only elegant, but also of high quality.

The countertops are made of laminated board, while the drawer runners and door hinges are fitted with a soft-close system, increasing their comfort of use. No more slamming!

# LYON

living room

For lovers of distinctive, modern interior design, Lyon is also available in a dark colour scheme. The combination of two contrasting shades of grey, complemented by cool LED lighting, creates a bold combination. In the Lyon

collection, we've used a soft-close system, and tempered glass in the doors of the vitrines and cabinets, which means that you'll love the furniture, not only because its beautiful, but also because of its functionality.

A touch **light** switch can be installed

Colour: **Platinum**

## A stunning play of colour and light

Thanks to the play of light and brown stained glazing, any additions and decorations that you want to display draw attention. Often, a single, original cabinet combined with an interesting wall colour and texture, as well as designer lighting can achieve a trendy result.

## The power of contrast

Dark, gloss pieces in the LYON collection are great with a background of bright, cool wall colours - be it white, silvery greys, or cool blue shades. It's also worth experimenting with an interesting wall texture that will highlight the smoothness of the glossy fronts.

# LYON system

Generously sized cabinets, statement vitrines, a mobile table and two TV cabinets to choose from. You also get a unique style, asymmetric pieces, and simplicity. In this collection, all lovers of design will find everything they need.

# MADRAS

living room/dining room

Furniture in soft tones - how can you make it stand out? To properly arrange furniture that has a soft colour scheme, you place it against a strong paint colour, for example, coral or navy blue, or patterned wallpaper.

With such bold colours, add-ons and accessories should be more subdued. Perfect matches are silver, shades of cream, or light grey. With this arrangement, the delicate colour of the furniture will stand out well from the rest.

**MTP Gold Medal**  
at the 2013 MEBLE POLSKA Furniture Fair

# MADRAS

living room/dining room

The bodies and fronts of this collection are in the warm Latte Oak, and the decorative features are in the lighter shade of Metallic Champagne. The delicate colour scheme clashes with the large frame surrounding

individual pieces. The subtle tones of the Madras collection go very well with bolder colours. Coral, navy blue and deep grey are perfect for this collection. If intense colours don't match the feel of the interior, you can always use softer colours - grey, beige, or light blue.

**LED lighting**  
- for selected elements  
optional

Colour: **Latte Oak**

## A unique design with hints of traditional wooden furniture

The subtle light oak shades, features with a satin gloss, and furniture feet in the colour of the feature are just a few of the many attributes that distinguish the Madras collection.

## Find your space – a little corner is enough

Statistically, we work almost 80,000 hours in our lifetime. This is time we spend away from home and our loved ones. Maybe it's time to change this? Create a home office. All you need is a small space, a desk and generously sized, functional wardrobes, cabinets or vitrines that will easily fit your documents.

# PELLO

living room/dining room

A perfect collection to change a small space into a cosy and functional interior. The pine contours of the bodies and fronts will suit any room. With its dark tones, the Pello system is perfect combined with bright wall colours

walls and accessories. It'll make your room look bigger, and the furniture won't overwhelm the room.

**Halogen lighting** for selected elements - optional

Colour: **Laredo Pine**

## A practical, comfortable and functional solution for lovers of modern interiors those who live in small spaces

Small interiors can be challenging to arrange. To ensure that they are functional and to avoid decreasing their limited space, you should focus on getting the right furniture. Be inspired by our Pello collection and its compact pieces.

# PELLO system

An elegant office in a classic and stylish dark colour will meet the expectations of even the most exacting customers. Your home office can look like this. It'll be functional and elegant, and everything will have its place.

# PROVENCE

living room/dining room

This collection is a combination of an idyllic Provencal atmosphere, with a hint of modernity. The classic, whitewashed fronts are combined with simple, dark countertops and rustic, metal handles - creating

an intriguing effect. The entire collection has 44 pieces, which you can use to arrange almost any room in your home. Whether it be the foyer, bathroom, living room, dining room, child's room or bedroom, you can arrange the entire house in the Provencal style.

Dojo **lighting**

## Cabinet – the undisputed queen of the living room

Not only because you can place an intriguing decoration on the countertop (a hanging element would look great above it), but mainly because of its great functionality. Provence offers a wide range of cabinets with a width of up to 180cm!

## A return to grace

Nothing brings families together more than feasting together, especially in a pleasant, rustic setting. The stylish sideboard will not only fit all your tableware (your everyday settings and those for special occasions), but also create a cosy, slightly rustic atmosphere.

When arranging our interiors, we want to create a unique, personalised space. Thanks to an extremely wide range of pieces, the Provence collection means that you can create many different arrangements throughout the apartment.

# SHETLAND

living room/dining room

A small space is enough. It's not the amount of space you have that makes your loved ones sit with you until the wee hours - it's a nice atmosphere, comfort, and a cosy interior decorated tastefully and with style.

For an apartment to be inviting, you should focus on natural and warm shades, imaginative accessories, and bright colours. In such spaces, the best ideas would be beige tones, delicate, light browns that remind you of a fresh cup of coffee with milk, and subtle decorations in chocolate shades. You just want to be here!

# SHETLAND

living room/dining room

The elegant bodies made of thick laminated board make them seem solid and raw. The grey recesses in some elements contrast against the entire collection in Shetland Oak, inspired by nature. Thanks to its natural shades,

the Shetland collection is ideal in darker interiors. Its larger bodies with a trendy, horizontal grain pattern are reminiscent of Scandinavian style - a raw and natural, yet elegant combination.

**Prismatic lighting**

## A stylish display and plenty of storage spaces

Shetland is a wealth of cabinets in different sizes, with generous drawers. You'll no longer run out of storage space. Additionally, the tinted glass of the vitrines (antisol bronze) will subtly show off your knick-knacks.

A fold-out table is great for owners of small apartments, where every square inch matters. There's comfort and functionality, as well as plenty of layout options, thanks to inclusion of multi-functional solutions in the furniture.

Bedrooms

# MAKE SURE THAT YOU ASSOCIATE YOUR MORNING WAKE UP WITH YOUR COMFORTABLE BED

The bedroom is one of the most important rooms in the house. It's where you rest, sleep, and regain energy for the next day. It's also a very intimate place, just for you and your loved ones. Design it so that you don't want to leave it.

.....

## WE ADVISE YOU **HOW TO START PLANNING**

The bedroom is a place where you rest, so it's best to use peaceful, bright colours on the walls. A fluffy carpet and thick curtains will be the perfect addition.

Remember that to achieve a great atmosphere in the bedroom, you need not only the right colour, furniture and lighting, but also accessories. Linen, a throw, or cushions will transform an ordinary room into an impressive bedroom.

.....

# LINATE

## bedroom

The Linate programme is a combination of original and sophisticated solutions. Do you love unique decorations? The system meets customer expectations by creating pieces that will make your bedroom unique

and beautiful. You don't have to wake your loved one when you get up in the morning and get ready to leave. Your furniture's soft closing means that you can leave easily and unnoticed.

The Linate bedside table received the Gold Grand Prix Medal in Readers' Ranking of the magazine 'Czas na Wnętrze' in 2014.

Children's and youth rooms

# DIFFERENT PERSONALITIES, THE SAME NEEDS

A children's room is a place for fun, relaxation and learning. A zone where dreams are born, plans are made, and the imagination gets aroused. Make your child's room inspire them to explore the world, face challenges, and realise their dreams!

.....

## WE ADVISE YOU **HOW TO START PLANNING**

The children's and youth room is your child's oasis. It has to be bright and cosy to encourage relaxation and learning. Start by choosing the colour scheme. Bright colours work best - light beiges, pinks, light blues and cosy, warm greens. The colours shouldn't be distracting or tiring.

Since this is a children's room, let your child help you choose the colours, pick accessories and furniture - let it be a fun time you share!

## A cabinet that functions as a wardrobe? It's possible!

The cabinet that functions as a wardrobe is great for anyone who seeks ergonomic and modern solutions.

# A cot for a new member of the household is a difficult choice, because it must be safe and practical

And let's not forget that it must also look good. It would also be great if it had a cabinet or small book case in the set. Amazon has all of this - a cot with up to three adjustable mattress levels, wooden removable rungs, and the option of a slide-out drawer on wheels. Plus, there are almost 20 pieces in the system to help you create a unique design for both boys and girls.

# CAYMAN

the youth room

If your child has grown out of stickers and toys, the CAYMAN programme is the ideal solution. There's nothing childish about the furniture in this collection that a teenager could find too infantile however, it's also

different from pieces chosen by adults, which are more serious. This means that your teenager can remain independent and demonstrate their independence both from parents and younger siblings.

Additional furniture: foyer, bathroom

Foyer – this is where you greet and say goodbye to your guests, it's where you wait for the return of your loved ones, it's where your home begins

.....

## WE ADVISE YOU **HOW TO START PLANNING**

### FOYER

Arrange your foyer so that it's functional and spacious. Remember that the design should match the style, colour scheme and furniture of the rest of your home. When furnishing a space, go for functional, sleek furniture, that won't dominate the (often small) foyer. Try bright lighting and choose the right flooring. Remember - it must be wear-resistant, easy to clean, and match the rest of the space in the apartment.

### BATHROOM

Even the smallest bathroom can be a functional and elegant. Start with a good layout. Draw up a bathroom plan and arrange the fitting you want to fit in it. Take advantage of all the nooks and crannies. If you don't have room, think about moving the washing machine to the kitchen. You'll gain more space for cabinets or a large mirror to visually enlarge the room.

## WHY MEBLE WÓJCİK?

### HIGH QUALITY

Most of the furniture from the Meble Wójcik collection is made of high-quality laminated board, which is characterised by resistance to damage, scratching, high temperatures and humidity. This feature combined with the use of modern technology, certified materials and accessories, and tight quality control systems means that the furniture is extremely durable and retains its elegant look for many years.

### ORIGINAL DESIGN

We following the latest design trends, and the tastes and expectations of our customers, and create our own original designs that combine beauty, elegance and functionality, using innovative ideas, attractive colour schemes, and aesthetic materials.

### BRAND RECOGNISED IN THE INDUSTRY

The Meble Wójcik brand has received many awards in brand image contests and prestigious rankings, and our furniture has received numerous industry awards. Meble Wójcik's most important distinctions include: Forbes Diamond, Product of the Year of the Magazine Meble Plus, Gold Medal of the Poznań Furniture Fair, Box Furniture Manufacturers' Ranking, Diamond of Furniture, Business Gazelles of the Magazine Puls Biznesu, and title of Good Company of Dziennik Rzeczpospolita.

### GOOD PRICE

While we strive to offer original products with the best performance qualities and unique stylistic features, we also keep in mind that it must be affordable. Creative technical solutions and our production scale allow us to offer you high-quality, elegant furniture at a reasonable price.

### FUNCTIONALITY

Already at the conception and design stage, we make every effort to ensure that our furniture collections give freedom and flexibility to create spaces in the apartments and homes of our customers, taking into account the constraints this brings. The individual elements of the collection have interesting and functional solutions that guarantee ease of use and optimise the use of often-limited storage space of our Polish houses and apartments.

### TRADITION AND EXPERIENCE

Our factories have been manufacturing furniture for customers from around the world for over 30 years. Our invaluable experience, continuous development, and pursuit of innovation and excellence allow us to offer better and more-interesting furniture collections.

### PROFESSIONAL STAFF AND CUSTOMER SERVICE

Currently, we employ over 1,200 employees in the three factories. Our employees are a professional and experienced team, committed to product development and customer service - from preparation and production of the furniture piece to delivery to your home. Regular employee training and development guarantees that our customers receive outstanding quality and service.

### CARING FOR THE ENVIRONMENT

Our factories use technologies that allow us to produce furniture without damage to the environment. Our long-term cooperation with proven and reliable suppliers enables us to track, in detail, the origin of the raw materials used in our production.
